fink

ports

brew

./compile

NGIMX

The logo consists of the letters "NGIMX" in a bold, black, sans-serif font. A red five-pointed star with a yellow outline is positioned above the letter "I". On both the left and right sides of the text, there are three horizontal red stripes that fade out towards the edges, creating a winged or speed-like effect.

**No existe otro stack tipo
"*amp" con nginx**

Configuraciones específicas para web apps

`/Applications/MNPP/conf/nginx/common/`

**Percona compilada y
lista para usarse.**

**oficialmente no ofrece
soporte para OSX.**

Integrado con php-fpm

2.* y 3.*

Script base para ejecutar web apps

**Soporte para django,
flask, webpy, web2py**

Drupal

demo

Flow

- Ubicación /Applications/MNPP/
- Crear vhost en conf/sites-available
- Activar vhost en conf/sites-enabled
- Colocar archivos en htdocs/
- Iniciar MNPP

```
server {  
    listen    80;  
    server_name drupal.local;  
    root /Applications/MNPP/htdocs/drupal;  
  
    access_log /Applications/MNPP/logs/nginx/drupal.access.log;  
    error_log /Applications/MNPP/logs/nginx/drupal.error.log;  
  
    include /Applications/MNPP/conf/nginx/common/drupal;  
}
```

```
/Applications/MNPP/conf/nginx/sites-available  
/Applications/MNPP/conf/nginx/sites-enabled
```

consola
mnpp

demo

\$ mnpp

Usage:

Start

sudo mnpp --php[Version] --start

Start only one service

sudo mnpp --start [service]

For php

sudo mnpp --start php[Version]

Stop

sudo mnpp --php[Version] --stop

Stop only one service

sudo mnpp --stop [service]

For php

sudo mnpp --stop php[Version]

Version:

52 | 53

Service:

nginx | percona | uwsgi

drush

```
$drush dl drupal-7.x --drupal-project-rename=drupal7
```

```
$drush site-install --account-name=myuser --account-pass=mypass  
--db-url=mysql://testme:testme@localhost/testme
```

demo

\$ drush help mnpp

Quickly management to MNPP

Examples:

drush mnpp start	Start all services
drush mnpp stop	Stop all services
drush mnpp restart	Restart all services
drush mnpp --nginx=start stop	Start or Stop nginx
drush mnpp --percona=start stop	Start or Stop percona
drush mnpp --php-fpm=start stop	Start or Stop php-fpm

Arguments:

start	Start MNPP services
stop	Stop MNPP services

Options:

- nginx**
- percona**
- php-fpm**
